- 1 mount- pencil quartz, amethyst, etc.- mostly jewelry grade
- 1 candy box, 33 mineral and crystals, suitable for wire wrapping
- 1 small cigar box- 1 small Jeffery, quartz crystal, and some small misc quartz crystals
- 1 flat- shards and double terminated quartz crystal
- 1 flat - crystal shards, some double terminated
- 1 flat - AR quartz crystal, some tubular, 32 pieces
- 1 flat- mostly AR quartz - singles, a few clusters, 42 pieces
- 1 flat, quartz crystals, singles from AR, 150 crystals
- 7 milky Jeffery quartz clusters
- 2 pieces- 1 cabinet 1 miniature - Brazilian amethyst - med. grade, small crystals
- 1 barite on black sphalerite - southern Illinois, hand specimen. barite has damage
- 10 tumbled African malachite stones, 1 botryoidal African malachite piece- 2 " thick, 8" x 7"
- Conchalite films on small cabinet piece- Mexico
- 1 6.5 " x 3.5" double terminated milky quartz xl, attached crystals- Arkansas
- 1 white calcite - large cabinet specimen- Mexico
- 1 , 1.5" ametrine polished sphere on stand
- 1 cluster - calcite crystals - very minor damage on calcite - on purple fluorite - hand specimen, displays well on brass stand. Illinois
- 4 specimen - 1 tn, 2 miniature, 1 hand sized irradiated smoky quartz- Coleman Mine, AR
- 1 8" long single quartz crystal. minor damage on tip. Coleman Mines
- 1 1" phantom quartz crystal, Robbins Mine, Arkansas
- 1 cabinet specimen - calcite - Mexico - with stand botryoidal
- 1 9"x 12"x 2" thick tiger eye slab - no polished edge
- 17 tumble polished tiger eye stones - Africa, some red blue mostly tan
- 1 cabinet specimen of sphalerite on dolomite (white), Missouri
- 4 water bubble quartz crystal - skeletal crystal - small hand specimen to

miniature size.

- 1 miniature quartz crystal with black sphalerite, Rush, Arkansas
- 1 cabinet and 1 hand specimen- drusy quartz- Mexico, with stands
- 1 hand specimen white calcite
- 1 miniature selenite gypsum specimen on stand
- 1 palette Mexican calcite cluster on fluorite and sphalerite - large hand sized specimen
- 1 hand sized Mexican calcite, no damage
- 1 milky quartz cluster - large hand sized - Mt. Ida , AR
- 1 cabinet specimen - Milky Quartz Cluster - Mt. Ida, AR
- 1 small miniature grey barite crystal on matrix
- 1 phantom quartz cluster - cabinet size - Mt. Ida, AR
- 1 8"x 2" quartz crystal, Coleman Mine, Garland Co. AR
- 1 cabinet sized quartz crystal cluster, no matrix, no damage
- 1 quartz crystal - larger single clear point with "ice" coating - Mt. Ida area with brass stand
- 1 cabinet sized milky quartz cluster, Mt. Ida area, Montgomery County , AR
- 1 quartz cluster with black splaterlite, Rush, AR. cabinet specimen
- 1 cabinet sized drusy quartz cluster, Mexico
- 1 T/N black sphalerite
- 1 large miniature, perforated but not polished banded yellow and red smithsonite - Monte Cristo Mine
- 1 hand-sized carnelian - Brazil
- 3 specimens feldspar rosettes, Magnet Cove, AR
- 5 black tourmaline specimens from hand-sized to small miniature, location unknown
- 1 small cabinet sized covellite
- 1 cabinet specimen of "coontail" quartz
- 1 hand specimen hematite crystals
- 1 large cabinet specimen of caliche- location unknown
- 1 weathered cabinet specimen dolomite
- 1 13"x 6"x 3" specimen lepidolite
- 9 tumbled pieces of lepidolite
- 1 fluorite hand specimen
- 1 flat hand specimen pink dolomite with chalcopyrite crystals
- 1 hand specimen weathered dolomite
- 1 hand specimen of pinkish dolomite, Black Rock Quarry
- 1 small cabinet sized bluish grey fluorite cluster, minor damage
- 1 hand specimen fluorite with pyrite - purple and tan
- 1 cabinet sized calcite cluster - Mexico

- 1 small cabinet sized hemimorphite
- 1 cabinet specimen of cave aragonite
- 1 miniature honey colored calcite crystal
- 1 green fluorite cube or matix
- 1 miniature double calcite crystal
- 1 calcite cleavage , miniature, Rush, AR
- 1 cabinet specimen drusy quartz on chert
- 1 small cabinet sized double terminated calcite crystal
- 5 polished jasper pieces Australian zebra stone
- 1 polished quartz dodecahedron with chlorite
- 1 hand specimen planton inclusion quartz
- 1 4" broken quartz crystal with heavy green chlorite
- 1 3" quartz crystal with green chlorite, Saline Co. Arkansas
- 1 4" x 2" quartz crystal with chlorite
- 5" lowry quartz crystal with green chlorite phantom
- 1 7" x 1.75" chlorite inclusion crystal
- 1 preform bandage jasper
- 1 small cabinet smokey quartz- double terminated
- 1 hand specimen quartz cluster
- 1 hand specimen of smoky quartz crystal with green tamerline
- 3 stilbite specimens - 2 small hand sized, 1 small miniature, Romania
- 1 double terminated quartz crystal
- 1 3.5" long quartz crystal with green chlorite
- 1 small cabinet irradiated smoky quartz cluster, Coleman Mine
- 1 cabinet sized white and gray lace agate
- 1 cabinet sized quartz cluster
- 1 cabinet sized barite specimen, Magnet Cove, AR
- 1 double terminated 2" long quartz crystal Arkansas
- 1 miniature aragonite specimen
- 1 cabinet sized double terminated quartz crystal cluster
- 1 6" long quartz crystal cluster with shade inclusion on back
- 1 fist sized quartz cluster
- 1 cabinet quartz cluster
- 1 cabinet sized slab of pseudo fossil with stand
- 1 miniature Jeffery quartz cluster
- 1 hand specimen white calrite
- 1 large hand sized Jeffery quartz cluster with scattered anchorite
- 1 small milky quartz crystal cluster
- 1 hand specimen with 2 pale green fluorite crystals
- 1 hand specimen white calrite

- 1 miniature pale green fluorite xl cluster
- 1 Jeffery quartz cluster on matrix
- 1 cabinet sized yard rock, Jeffery milky quartz
- 1 box flat 150 jewelry points 20 small quartz crystal clusters
- 1 cabinet sized orthoclase specimen -polished face has nice rainbow effect in gabbro matrix
- 1 cabinet sized wavellite on matrix specimen
- 5 Jeffery quartz cluster miniature to hand sized,, need further cleaning
- 1 flat small clusters individual quartz points, few double terminated
- 1 flat small cluster, few single xl points
- 1 small basket of small miniature to mixture brookite on smoky quartz specimen, need further cleaning
- 1 cabinet sized lepidolite
- 2 miniature lepidolite specimens
- 1 had specimen Brazilian amethyst
- 3 miniature Jeffery quartz specimens
- 1 cabinet sized - elbaite and rubellite tourmaline with mica
- 4 pieces of miniature Jeffery quartz crystals
- 6 small iron oxide concretions
- 2 elongate calcium specimens
- 5 smoky quartz bubble quartz crystals
- quartz tubular specimens, ranging from miniature to hand specimen
- 1 miniature piece of carnelian
- 1 small pyrite cube on matrix
- 1 talc miniature sample
- 5 miniature quartz clusters, need cleaning
- 4 pieces of miniature Jeffrey quartz with calcite
- 1 pint jar of tumbled fire opal, half full in water with a few smoky quartz crystals
- 1 1/4" double terminated pale smoky quartz crystal
- 1 hand specimen apophyllite on white drusy calcite
- 1 quartz phantom crystal 3" on cluster
- Indian boji stone
- 1 larger hand specimen - calcite
- 1 hand specimen "Herkimer Diamond" Qz, XL in matrix
- 1 6"x 1" 1/2"x 3/8" kunzite blade
- 1 small hand specimen - pale green apophyllite, India
- 1 hand sized quartz cluster with shale
- 1 sphalerite - hand specimen - surface worn. unknown location
- 1 piece Mexican coconut geode

- 1 miniature variscite, Delinde Mine
- 1 hand specimen - low grade Jeffery quartz, NLR, AR
- 1 hand specimen, petrified wood - locality unknown
- 1 hand specimen - iron oxide cemented sandstone-location unknown
- 1 hand specimen -sphalerite , chalcopyrite , dolomite
- 1 2 “quartz crystal with dark green tourmaline, Brazil.
- 1 hand specimen - black tourmaline in milky quartz
- 1 miniature drusy quartz with sphalerite
- 1 small hand specimen, 1 side green tourmaline, reverse drusy quartz
- 1 miniature drusy quartz with sphalerite
- 1 hand specimen petrified wood, location unknown
- 1 hand specimen - low grade Jeffery quartz, NLR, AR
- 1 hand specimen drusy quartz
- 1 6” stream tumbled petrified wood, unknown location
- 1 hand specimen, brown dolomite crystal on matrix. North America
- 1 hand specimen, pale blue kyanite , North Carolina
- 1 hand specimen - fluorescent calcite from Septarian Nodule, Utah
- 1 hand specimen - drusy quartz - Missouri with stand
- 1 hand specimen - worn pyrite fluorite, Southern Illinois
- 1 miniature bauxite, Saline County, AR
- 1 miniature - rectorite “mountain leather “
- 1 hand specimen - white calcite on brown smithsonite, Monte Cristo Mine,Rush, AR
- 1 hand sized malachite in matrix
- 1 Jeffery quartz hand specimen, North Little Rock, AR
- 2 adamite miniatures, Mexico, fluorescent
- 1 brown drusy quartz on chert miniature, unknown location
- 1 hand specimen - weathered iron oxide coated quartz, with malachite
- 1 miniature - malachite and quartz on ironstone matrix, Mexico
- 1 small miniature rhodochrosite crystal specimen
- 1 thumbnail emerald crystal stream tumbled
- 2 drusy quartz hand specimen, brown. location unknown
- 1 hand specimen bronchonthite
- 1 miniature lepidolite crystals in matrix
- 1 small Mexican geode
- 1 hand specimen stubby quartz
- 1 miniature drusy quartz - location unknown
- 1 8” long crystal cluster on stand
- 1 aragonite double rose cluster miniature
- 1 5x5 slab of copper ore - unknown location

- 2 miniature - orange garnet - location unknown
- 1 miniature drusy quartz
- 1 pink double terminated quartz crystal, Madagascar on stand
- 1 rounded miniature rose quartz, Black Hills, USA
- 1 miniature pink fluorite cluster
- 2 small colorless calcite cleavages
- 1 miniature malachite and calcite, Mexico
- 1 miniature brown zircon
- 1 hand specimen azurite coating on matrix
- 1 small cabinet specimen - encrusting pale amethyst and green fluorite on matrix, location unknown
- 1 Miniature Aragonite Cluster - Mexico
- 1 Miniature Quartz Cluster with Adul - Miller Mtn. Garland Co., AR
- 1 Bournonite - Small Miniature -Mexico
- 1 Small Miniature Hemimorphite - Mexico
- 1 Smokey Quartz - Tennessee
- 2 Smokey Quartz Clusters - Australia
- 1 Native Arborescent (sic) Hand Spec., Ray, AZ
